

The Christmas Season Begins in November

We have been focusing so much on what we are now building that we have not highlighted our current Belt-Line RR. It is surrounded with a continuous panorama picture 120 feet long hanging from three CLRC Train House Walls. The panorama picture includes Chicago, Lemont, the Joliet Refinery, the Chicago "EL", and the Joliet Power Plant. We are still continuing on with the building of our new layout. However, November brings on our busiest Open House time of the year. Everyone has worked on getting the Christmas Decorations up and cleaning up our construction work.

Scenes from the Belt-Line with the panoramic picture in the background. Power plant and Refinery

Following the Belt Line panorama picture to Chicago and viewing the "EL"

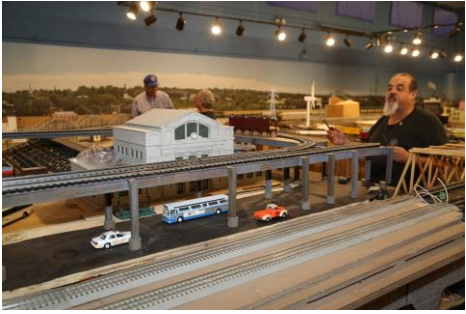

UP 10000, SF FT's and NYC Hudson wrap around the Big Mountain

Bob, Tom, Mike and Phil get the layout decorated for the Christmas Holidays

Tom works on the Valley, Mike cleans track and Steve sets the stage for the CLRC Ghost Town

Jeff continues to develop the Elevated Railroad

The Big Mountain continues to look better under Steve's direction

Enjoying a moment with son Matt, Grandmother Deb and Tanner and Zayden

We wish everyone a very Merry Christmas and some great holidays.

Take a look at our website: www.clrctrains.com to see more and enjoy our videos of product.

We are a Lionel Ambassador Club and have gotten the top marks for every year.
