

September 2018 Layout Update

Key enhancements continue with our CLRC Layout. The long wall by the community seating area has been further developed into a sharp enhanced background for the multiple track lines. The CLRC Oil Field on the Beltline has been upgraded. Lemont's wall has a green frontage below the key part of the background picture. Our CLRC Drive-In is showing movies at a new location allowing all to see feature movies again. Follow the Santa Fe F3 as it travels around our layout.

September was a good month.

New grassy wall on Beltline

New Drive-In ready to show Movies

Farm from Modular Layout lives

Jeff and John work on switches

Joe finishes the Oil Farm

Mountain continues to evolve

The West Wall really looks great behind the buildings and by itself

Trolley line around new town

Santa Fe checks out the layout
