

CLRC August 31, 2017 Update

We have a few weeks left until our September 16, 2017 Open House. Much has been done in August with some additional work to be completed shortly. Then comes the cleanup and transformation to make our layout ready to run trains. The progress made in August is substantial.

Al and Ed log in the Track Plan

Tom and Bill build an airport runway while Bill works on scenery and ballast

Bob builds supports for "EL" Track

Dave, Jeff, Swav lay new track

George attaches rock to new wall

George 3D prints parts for Layout

Jeff works on the "EL" and sets up a trial scene

Water Tower with CLRC Logo

Joe paints Sodor Layout

John works out switch wiring

Ken cuts, paints and mounts trees for Layout Forest

Phil cuts roadbed for curved track and lays track over lockers

Tom sets screen over cardboard wall

Tom, Herb, and Joe straighten and screw down track

Steve's Mountain takes shape with an observatory and some trees
